

Hospitalized Patients:

Our physicians round daily at Huntsville Hospital Main, Crestwood Medical Center and Encompass Rehabilitation Hospital.

All concerns for the hospital admission should be addressed with the Physician during rounds. However, our Physicians are available to hospital staff and referring physicians during normal working hours. After hours, the On Call Physician is available for additional calls from the Hospital.

Once you are discharged, all of your medical records are retrieved and entered into our Electronic Medical Records System.

The Physician will give you instructions regarding a follow-up appointment in our office. Appointments can be made by call: 256-533-7676.
