
Hospital Information

Our Physicians and Nurse Practitioners have privileges and make rounds on patients at Huntsville Hospital, Crestwood Medical Center, and Encompass Rehabilitation Hospital.

As a patient hospitalized in one of the above facilities, here are a few things that may be helpful to know.

The physicians and/or the nurse practitioners round daily on patients at each hospital facility. **Please note the rounding/visit time may vary from day to day.**

The physicians and nurse practitioners are available and reachable to the hospital staff and referring providers during normal office hours.

After office hours, the on-call physician is available and reachable by the hospital staff and referring providers. We have a physician from our group on call and available 24 hours a day, 7 days a week.

Any question, concern, or issue you have about your hospitalization, needs and should be addressed with the physicians or nurse practitioners during their hospital round/visit with you.

When you are being discharged from one of the above hospital facilities, you will be given instructions on when to follow up in our clinic.

Your hospital follow-up appointment can be made by calling our office and choosing the scheduling option on the automated system. If you are asked to leave a message please make sure to clearly state your name, date of birth, the contact number you wish for us to call, and a brief explanation stating the reason you are calling. This allows the clinic staff member that is calling you back to be better prepared to address your need.

Once you are discharged from the hospital, your medical records for that hospitalization are retrieved and entered into the electronic medical record system at our clinic.
